

FAVOUR IBEZIM

Enugu, Nigeria | +234 807380608 | <mailto:favouribezim123@gmail.com>

LinkedIn: <http://www.linkedin.com/in/favour-ibezim-a957431b5>

Education

University of Nigeria, Nsukka – Bachelor of Engineering, Electronic Engineering (2024)

- GPA: [4.26 / 5.0] | Class Rank: [Second Class Upper Division]
- *Thesis: AI-Assisted Surveillance Drone - Designed a drone system integrating YOLO-based facial recognition and gait analysis. Built and tested AI pipelines for real-time identification with high accuracy across diverse environments, applying embedded systems, computer vision, and machine learning expertise.*

University of Nigeria Secondary School, Nsukka – West African School Certificate (2019)

University Primary School, Nsukka – (2008 – 2013)

Research & Project Experience

- **Drone-Based Identification of Security Threats and Movement Patterns Using Gait Recognition for Predicting Imminent Threats**
Conducted research on AI-driven gait recognition for predictive threat analysis, focusing on improving surveillance systems through machine learning and behavioral pattern detection. AI-Assisted Surveillance Drone
- **AI-Assisted Surveillance Drone**
Designed and implemented a drone system integrating YOLO-based facial recognition and gait analysis. Developed AI pipelines for real-time identification with high accuracy in diverse environments using computer vision and embedded systems.
- **Real-Time Web-Based Student Attendance System (Face Recognition & Supabase)**
Designed and implemented a web application that automates student attendance using computer vision and cloud services. Integrated face recognition for real-time identity verification and Supabase for secure data storage, course enrollment validation, and attendance tracking.
- **Arduino-Based Radio-Controlled (RC) Car**
Designed and built a radio-controlled car using Arduino microcontroller technology. Implemented motor driver circuits and wireless communication modules to achieve precise steering, speed control, and remote operation.
- **Battery-Powered Water Pump System**
Developed a portable and energy-efficient water pumping system powered by rechargeable batteries. Integrated motor control and optimized power usage to provide reliable water flow for small-scale applications.
- **Solar-Powered Radio-Controlled (RC) Boat**
Engineered a solar-driven, radio-controlled boat by combining renewable energy sources with wireless control. Designed the system to harness solar energy for propulsion while ensuring real-time navigation through radio signals

Relevant Experience

- **TE Quant, Port Harcourt – Data Science Intern** (Jan – Jun 2024)
Built predictive models and automated workflows, reducing manual work by 30%. Created data visualizations for business insights, improving forecast accuracy by 20%.
- **TotalEnergies Marketing Nigeria PLC – IT & Maintenance Engineering Intern** (Jan – Jun 2024)
Supported the OASIS POS system integration for real-time sales monitoring. Delivered technical support and maintained hardware/software systems.
- **Genesys Tech Hub, Enugu – Web Development Intern** (June – Aug 2025)
Designed and developed user-friendly, responsive web pages that improved accessibility and user engagement. Collaborated with a cross-functional team to build a web application addressing challenges in Nigeria's agricultural supply chain, enhancing efficiency and connectivity between farmers, suppliers, and buyers.
- **European University of Nigeria** (2025)
 - Software Developer (ICT Department) at European University of Nigeria, Abuja. Developed and deployed Computer-Based Testing (CBT) software, configured and managed CBT examination systems, and provided technical support to ensure smooth and secure digital assessment processes within the university.
 - Head of Media (2026) at European University of Nigeria, Abuja
Led the university's media and digital communication initiatives, overseeing content creation, branding, social media management, event coverage, and strategic communication to enhance the institution's visibility and engagement with students and the public.

Publications & Conferences Presentations

- Ibezim, F. et al. (2025). *The Design and Fabrication of an AI-Assisted Surveillance Drone*. ResearchGate.
- Ibezim, F. et al. (2025). *Real-Time Web-Based Student Attendance System Using Face Recognition and Supabase*. ResearchGate.
- Ibezim, F. et al. (2026). *Drone-Based Identification of Security Threats and Movement Patterns Using Gait Recognition for Predicting Imminent Threats*. ResearchGate.

Conference Presentations

1st International Conference/Exhibition of the Department of Mechatronic Engineering, University of Nigeria, Nsukka, Nigeria (2025)

Presented at the 1st International Conference/Exhibition of the Department of Mechatronic Engineering, University of Nigeria, Nsukka, Nigeria

February 27–28, 2025 (Oral Presentation / Research Paper Presentation)

- **Oral Presentation:** The Design and Fabrication of an AI-Assisted Surveillance Drone
- **Participant:** 1st International Conference/Exhibition of the Department of Mechatronic Engineering, University of Nigeria, Nsukka, Nigeria the Design and Fabrication of an AI-Assisted Surveillance Drone

International Electronic & Computer Engineering Conference (IECEC 2026)

University of Nigeria, Nsukka | Feb 25–27, 2026

In collaboration with IEEE Skill Up Hub (Region 8, UK) & Centre for Future Technologies, University of Chichester, UK.

- **Oral Presentation:** *Drone-Based Identification of Security Threats and Movement Patterns Using Gait Recognition for Predicting Imminent Threats*
- **Participant:** International Electronic & Computer Engineering Conference

Leadership & Service

- Class Representative, Electronic & Computer Engineering (Year 1–3)
- Senior Prefect, University Secondary School Nsukka (2018/2019)
- Team Lead, IT Support – NSE Student Debate & Faculty Conferences (UNN)

Achievements & Honors

- Certified Web Developer (2025)
- ALX AI Career Essentials (2024)
- NSE Student Member – UNN Chapter
- Award Winner – Ogada Educational Advancement Forum Essay Competition (2023)
- Multiple leadership awards (SCM-UNN, 2020–2024)
- Certificate of Participation – 1st Hybrid International Conference & Exhibitions, Faculty of Engineering, UNN (AI-Assisted Surveillance Drone Project 2025)
- Certificate of Presentation – IECEC 2026
- Certificate of Participation – IECEC 2026
- Various academic and leadership recognitions (SCM, NSE, UNN)

Skills

Programming: Python, R, SQL, C, C++

AI/ML: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy

Data Visualization: Power BI, Tableau, Matplotlib, Seaborn

Embedded Systems: Arduino, Raspberry Pi, Microcontrollers

Web Development: HTML, CSS, JavaScript, React/Next.js, Node.js

Soft Skills: Problem-solving, Analytical Thinking, Teamwork, Communication

Certifications

- Web Development Certification (2025)
- ALX AI Career Essentials (2024)
- Introduction to Data Science (2024)
- AI Beginner's Guide – Simplilearn (2023)
- CCNAv7: Introduction to Networking (2020)
- CISCO IT Essentials (2020)

Languages

- English (Fluent)
- Igbo (Fluent)

Next of Kin

- Prof. Emmanuel Ibezim (Dad), Vice-Chancellor, European University of Nigeria, Abuja.

Referees

- Prof. Chigbo Mgbemene – Department of Mechanical Engineering, University of Nigeria, Nsukka.
- Ass. Prof. Vincent Chijindu – HOD, Department of Electronic & Computer Engineering, University of Nigeria, Nsukka.
- Dr. Dumtochukwu Oyeka –Department of Electronic & Computer Engineering, University of Nigeria, Nsukka.
- Prof. Vincent Ejere – Dean, Faculty of Biological Sciences, University of Nigeria, Nsukka.
